Tom Bishop called to advise me that an envelope bearing the return address of the New York Times, 1920 L Street, N. W., Washington, D. C., was delivered to his office by courier. He advised me he did not know the identity of the courier; however, the courier was given this envelope by a guard at the entrance of the building. These are the only facts known with reference to this matter. u

A quick examination of the material indicates that it is additional material apparently delivered to the New York Times which appears to be identical to that heretofore furnished to Congressman Mitchell of Maryland and Senator McGovern of South Dakota. u

Under the circumstances it would be helpful if a contact could be made with the New York Times to determine the manner in which this information was delivered to the New York Times office here in Washington. It will also be desirable to attempt to trace back its delivery to Bishop's office. If approved, a contact will be made with the New York Times and in the meantime we will attempt to interview the guard at the entrance of the Justice Building who allegedly had this package handed to him. The attachments are being forwarded to the Laboratory for appropriate examination. u

Reference is made to your memorandum of March 23, 1971, requesting documents stolen from our Media Resident Agency on March 8, 1971. U

Reference is also made to my memorandum of March 18, 1971, to Assistant Attorney General, Internal Security Division, copy to Assistant Attorney General, Criminal Division, and my memorandum of March 19, 1971, to Assistant Attorney General, Office of Legal Counsel, copies to Assistant Attorneys General in the Criminal and Civil Divisions, which furnished background information concerning the Media burglary. U

For your information burglary was discovered during the morning hours of March 9, 1971. Forcible entry was made into the Media Resident Agency which is located on the second floor of the County Building, Front and South Avenues, Media, Pennsylvania. Entry was gained by jimmying one of two permanently locked doors and moving two cabinets located immediately inside this door. All Agents' desks and locked file cabinets were pried open. All serials and notes in these cabinets were missing. U

It is estimated material taken consisted of investigative data pertaining to criminal, applicant, and security type investigations, as well as certain instructional and training documents. There was no indication that any attempt was made to force open a locked combination safe containing firearms, manuals, handbooks, and other FBI material. U

Following the disclosure of this burglary, an intensive investigation was initiated in order to identify the subjects. In addition, our Philadelphia Office was instructed to ascertain exactly what material had been stolen and copies of all such items are to be furnished FBI Headquarters. U

Our investigation suggested that individuals connected with the East Coast Conspiracy to Save Lives may have been involved in this burglary. On March 16, 1971, [redacted] was contacted by a representative of this Bureau, furnished details concerning the Media burglary, and was advised that certain individuals associated with the East Coast Conspiracy to Save Lives including [redacted] an unindicted co-conspirator, may have been involved in the burglary. [redacted] stated he did not want [redacted] interviewed by the FBI at this time. The conversation with [redacted] was confirmed by memorandum dated March 18, 1971, to the Assistant Attorney General, Internal Security Division, with a copy sent to the Criminal Division. This letter also indicated that no active investigation would be conducted concerning the burglary of the Media Resident Agency relative to defendants or unindicted co-conspirators in the East Coast Conspiracy to Save Lives matter without first clearing such with the Department. U

Recognizing the impact the disclosure of some of the material in the stolen serials could have on FBI operations, a conference was held with Deputy Assistant Attorney General Leon Ulman, Office of Legal Counsel, on March 18, 1971. After furnishing the details of the burglary and a run-down of the items stolen, Mr. Ulman was asked whether a court order could be obtained to prohibit public disclosure of the documents stolen. Mr. Ulman stated that there was little precedent for such an order, however, the possibility existed such an order might be obtained. He suggested this be discussed with the Civil Division or the division having jurisdiction over the case. The conversation with Mr. Ulman was confirmed in writing by memorandum dated March 19, 1971, to the Assistant Attorney General, Office of Legal Counsel, with copies directed to Assistant Attorneys General, Criminal and Civil Divisions. The Criminal Division in this letter was requested to advise this Bureau as soon as possible as to the feasibility of obtaining a court order since the possibility existed there may be a public disclosure of stolen FBI material in the very near future. U

The Attorney General

On March 23, 1971, Mr. Ulman contacted a representative of the FBI Legal Counsel's Office and indicated that he was referring to the Civil Division the FBI request concerning the possibility of getting a restraining order prohibiting the disclosure of any information taken from documents during the Media theft. U

In compliance with the request set forth in your March 23, 1971, memorandum, Xerox copies of 17 stolen FBI serials which were furnished to Congressman Parren Mitchell and Senator George McGovern were delivered to Mr. Mardian. In addition, Mr. Mardian was furnished 86 other serials which are known to have been taken during the burglary. As additional serials are identified as being stolen, copies will be furnished to you immediately. U

REASON-FCIM II, 1-2.4.2

DATE OF REVIEW 3-15-91

CLASSIFICATION CHANGED PER CIA/STB 009 4/14/92

Domestic Intelligence Division has conducted detailed review of 86 documents related to our work which Philadelphia Office has identified as being stolen. Damage assessment broken down into 3 main areas: (1) Racial Matters - 29 documents compromised in this area involve black extremist investigations. 6 confidential sources disclosed and 3 symbol number racial informants jeopardized as well as a now discontinued telephone surveillance on Black Panther Party office. Damage is believed serious except that our investigations of Black Student Union groups could be distorted to represent racially inspired inquiries or invasions of academic freedom. (2) New Left and Miscellaneous - 28 communications in this category deal with various New Left extremist and procommunist groups and individuals. Damage in this area could be considerable including possible loss of 2 valuable and established informants covering Klan and one covering White Panther Party. Also, several communications reveal

a touchy problem for [redacted] if disclosed. (3) Espionage and Foreign Intelligence - 29 documents in this area relate to variety of subjects including investigations of members of Jewish Defense League, visitors to and from communist countries, and [redacted]

In addition, one document refers to [redacted] Referral/Consult [redacted] Another communication cites Defense Supply Agency policies concerning travel to communist countries by employees of industrial firms. Several documents refer to "Security Index" and one set of criteria is listed. 6 classified documents are involved, suggesting espionage violations when perpetrators apprehended. In addition to specific disclosure of various investigations, sources and programs, revelation of these documents publicly could lead to distorted allegations of Bureau's interest in campus activities, could jeopardize our relationship with various private and Federal agencies including Telephone Company, and could lessen public confidence in Bureau's ability to maintain confidential relationships. Individual writeups on all items of correspondence set forth in attached exhibit [redacted]

SECRET

Memorandum to Mr. W. C. Sullivan
RE: BURGLARY OF FBI RESIDENT AGENCY,
MEDIA, PENNSYLVANIA, MARCH 8-9, 1971

RECOMMENDATIONS:

(1) We are ordering Philadelphia Office to clearly show on all copies of documents stolen, both in its files and in files of auxiliary offices, the fact they were stolen. Philadelphia also being instructed to take steps so this will be clearly shown in files of all informants and sources involved. We will take similar action regarding copies of documents and informant files maintained at Bureau. This believed necessary to insure that all subsequent action in substantive cases involving compromised documents may be weighed and evaluated accordingly. U

(2) We are instructing Philadelphia to insure that all auxiliary offices whose investigative subjects, informants or sources, or Agent personnel were named are notified. Philadelphia will instruct such offices to review the material to insure any needed precautionary or remedial action is promptly taken. Since the avowed purpose of the theft of these documents is to use them in a manner inimical to the best interest of the Bureau, it is believed necessary that all Agent personnel whose identities have been compromised be so notified and that other offices having bases so compromised may be placed on notice so that all precautionary measures may be taken to avoid any embarrassment to the Bureau. U

(3) It is recommended that the following outside agencies be advised of theft of particular documents involving them: [redacted] with respect to items showing [redacted]

b7D

[redacted] (for specific information on this point, refer to page 64 in attached exhibit) [redacted]

[redacted] (see page 78 of attached exhibit): and [redacted]

[redacted] (see page 103 of attached exhibit) (S) (X) - Refer to [redacted]

(4) Domestic Intelligence Division will follow results of investigation in this case to evaluate, when the case is solved, whether prosecutive action for violation of the espionage statutes is feasible. In this connection, it is not being suggested that the matter be handled as an espionage investigation, but it is believed desirable that individuals interviewed who could be involved or have knowledge of those who may be involved in the burglary be advised of possible espionage implications.

Knowledge of such prosecutive potential might result in more cautious use of the stolen documents by those who now hold them. *u*

(5) We will continue to carefully review any additional items of correspondence furnished by Philadelphia Office with a view to protecting the Bureau's interests. *u*

(6) That Inspection Division evaluate the overall problem of resident agency security. This has been the topic of specific inspection interest in accordance with the Director's approval of recommendation in a memorandum dated 2/6/67 on the subject matter of "FBI Security Committee." A specific recommendation was made and approved in this memorandum that the Inspection Division during field office inspections pay particular attention to the security hazards of resident agencies to determine any vulnerability to clandestine entry. *u*

Memorandum to Mr. W. C. Sullivan
Re: Burglary of FBI Resident Agency,
Media, Pennsylvania, March 8-9, 1971

~~SECRET~~

DETAILS:

Reference my memorandum 3/12/71 advising that we were conducting a detailed review of the documents related to work in Domestic Intelligence Division which Philadelphia Division has identified as having been taken in the burglary of the Media Resident Agency. A total of 86 such documents have been identified to date by Philadelphia Office and we have prepared an individual write up on each item (which are attached as an appendix to this memo). These write ups show the background of the various cases involved together with the identity of the particular document taken, as well as a damage assessment for each item. U

For purposes of convenience, this memorandum which summarizes the Domestic Intelligence Division damage assessment to date, is broken down into three categories covering Racial Matters, New Left and Miscellaneous, and Espionage and Foreign Intelligence Matters. There was a nearly even division in material falling into these three categories. U

Racial Matters

A review of 29 documents pertaining to racial investigations shows investigative interest in 57 individuals involved in extremist Black Panther Party (BPP) and Republic of New Africa (RNA). Investigative interest in 23 organizations also shown. These include BPP and RNA, in addition to National Black Economic Development Conference (NBEDC), the group demanding reparations from white churches; the Black Student Union at Pennsylvania Military College; and the Swarthmore Afro Students Society, Swarthmore College. Officers of these student groups are included in 47 individuals identified as targets of investigative interest. Also included in 23 organizations named are 12 black student groups, subject of preliminary inquiries to determine extent of extremist influence. U

Six confidential sources of information, including one ghetto racial source, one potential racial informant in Klan, two security officers on college campuses, and two administrative employees on campus, are mentioned by name. (One of administrative employees is also mentioned in section dealing with New Left matters.) Three symbol number racial informants in NBEDC may possibly be exposed, if the organization carefully analyzed information they furnished. U

~~SECRET~~

Memorandum to Mr. W. C. Sullivan
Re: Burglary of FBI Resident Agency,
Media, Pennsylvania, March 8-9, 1971

~~SECRET~~

A summary of 18 paraphrased conversations furnished by a telephone surveillance, PH 1209-R*, could possibly reveal surveillance, which was on Black Panther Party headquarters in Philadelphia. This source, approved by Attorney General, was discontinued 2/10/71. u

Two classified documents were included in those taken, an FBI letterhead memorandum on NBEDC and an FBI report on RNA. Both were classified "CONFIDENTIAL." u

Three investigative aids, the Black Extremist Fugitive List, the Black Nationalist Photograph Album, and the Racial Calendar, were mentioned in a letter to all Special Agents in Charge. The letter noted the Fugitive List is to be furnished to all offices and mentions the Photograph Album and Calendar, but does not describe them. u

New Left and Miscellaneous

Twenty-eight of the communications cited by Philadelphia Office deal with New Left matters or with individuals under investigation because of ties with miscellaneous subjects. These include correspondence regarding various factions of Students for a Democratic Society (SDS), pro-Chicom Progressive Labor Party, violence-prone White Panther Party, and Trotskyite Young Socialist Alliance. In six instances, correspondence concerns subjects with no clear-cut organizational ties but with alleged militant or pro-Marxist backgrounds or sympathies. In addition, three items relate to Klan investigations in Philadelphia area. u

Altogether, 56 individuals and 5 organizations are identified as being of investigative interest to FBI or subjects of individuals case files, including 22 individuals connected with the cKlan. u

Portions of two SAC letters are included but in both instances the information is harmless and could not reasonably be used to injure Bureau: one merely cites administrative procedures relative to teletype reporting and the other cautions field not to photograph visitors to Federal agencies without specific Bureau approval. A copy of monograph prepared at Seat of Government was also included in material taken; however, this document, "The Struggle Against Lawlessness," contains no sensitive or potentially damaging information even if released publicly. u

Correspondence relating to substantive cases could result in following damage if publicized or made known to subjects or sources named: U

(3) White Panther Party informant of New York Office [redacted] is identified by symbol number and correspondence makes it clear that New York Office has a well-placed female source in group. [redacted] would not be directly compromised if this communication were publicized, but might come under suspicion. U

(4) Two confidential [redacted] sources are named and shown to be furnishing data to Bureau [redacted] U

(5) In a number of instances, the correspondence sets out leads to obtain telephone toll call information and to check records of various nearby colleges with regard to both present and past students. This information could be used in an effort to cause embarrassment to the telephone companies or colleges involved. Conceivably legal action could be instituted to prevent their future cooperation with the Bureau. U

There is no indication [redacted] is actively investigating group or seeking to infiltrate it on our behalf, but this whole issue is highly sensitive one in Canada and could become a touchy matter for [redacted] to handle if publicly disclosed. Memorandum to Mr. W. C. Sullivan
Re: Burglary of FBI Resident Agency,
Media, Pennsylvania, March 8-9, 1971

~~SECRET~~

Frequent mention is made both of results of leads to check records of various local, state and Federal agencies, including INS, CIA, State (Passport records), local voter registration records, credit records, police records, telephone toll charge records, Board of Education records and hospital records. One document contains results of investigation at a mental hospital which sets out medical diagnosis of subject's mental condition. In the wrong hands, this could be used to charge hospital with breach of medical ethics. ~~(U)~~

Several Bureau counterintelligence procedures were mentioned in the communications taken: ~~(U)~~ ~~(S)~~ ~~(U)~~

[REDACTED] ~~(U)~~

Several documents refer to [REDACTED] ~~(U)~~ ~~(S)~~ ~~(U)~~ b7E

[REDACTED] Surfacing of these documents would indicate to hostile intelligence service and to general public that Bureau has investigative technique of [REDACTED]

[REDACTED] However, communist intelligence probably suspects as much already. ~~(U)~~ ~~(S)~~ ~~(U)~~ b7E

Another document identifies a subject who immigrated here from a communist country but it is not treated as a "program-type" case. [REDACTED]

Memorandum to Mr. W. C. Sullivan
Re: Burglary of FBI Resident Agency,
Media, Pennsylvania, March 8-9, 1971

Mention is made of the initials "SI" and of "Security Index" and "Priority III" of Security Index. One document asks for field to consider recommending Jewish Defense League subjects for inclusion in Security Index and sets out one SI criteria. Another document makes reference to initials "AI" but does not spell it out as Agitator Index. u

b7E

In addition to exposing our interest in [redacted], two documents pinpoint investigation on visitors to Czechoslovakian Embassy and Soviet Consular Office, Washington, D. C. Our interest in visitors to communist establishments in U.S. is known to communist intelligence services, and therefore damage in this connection is minimal. ~~SECRET~~

(U)

Classified Documents Involved

To date, of the Domestic Intelligence Division material identified by Philadelphia as being stolen, 6 classified documents are involved. All of these are "Confidential" and are described further as follows: ~~SECRET~~

b7D

[redacted] a Bureau letterhead memorandum concerning a member of the Young Socialist Alliance; a field letterhead memorandum on the "National Black Economic Development Conference"; a Bureau report on the "Republic of New Africa"; and a letterhead memorandum on the "Visit of Soviet 'Circus on Ice' to the U.S., 1970." The fact that classified documents were involved will enable us to consider espionage violations when subjects are apprehended and this will be borne in mind. However, it is noted that many of the intra-Bureau correspondence involved were not classified but related to extremely sensitive matters and would have been classified prior to any dissemination outside the Bureau. ~~SECRET~~ u

Summary of Damage Assessment

Of the 86 documents identified by Philadelphia to date concerning Domestic Intelligence Division matters, this correspondence specifically identifies 167 individuals and 32 organizations as of investigative interest to the FBI. 13 confidential sources of information are specifically named and, in addition, 7 symbol number informants could be compromised. One telephone surveillance (on Black Panther Party) has possibly been compromised, although this coverage has already been discontinued. u

~~SECRET~~

Memorandum to Mr. W. C. Sullivan
Re: Burglary of FBI Resident Agency,
Media, Pennsylvania, March 8-9, 1971

~~SECRET~~

Actual amount of damage done to our investigations will depend on many factors not yet determined. Final damage will hinge primarily on extent of disclosure of various documents and whether they are revealed to unfriendly, subversive or hostile elements such as New Left press outlets or communist intelligence services. Therefore, no exact estimates can be rendered at this time as to the amount of damage done. Nonetheless, we can make following tentative damage assessments with respect to three principal categories involved (racial, new left and miscellaneous, and foreign intelligence). u

Racial

In general, damage in this field is believed to be moderate as to informant loss and it is felt that most of the sources compromised could probably be replaced within reasonable period of time. Potentially the most damaging item in this category involved our investigative interest in various Black Student Union groups. Although we only have interest in extremist influences in these student groups, unfriendly critics could seek to portray our investigations as invasion of academic freedom or racially inspired investigations. u

New Left and Miscellaneous

Potential damage here is considerable, including possible loss of two valuable established Klan informants and one White Panther Party informant. In addition, our confidential relationship with [redacted] could be impaired and various communications could be distorted in effort to depict FBI as having wide-ranging investigative interest in college activities. ~~SECRET~~ u

b7D

Espionage and Foreign Intelligence Matters

Referral/Consult

Potential damage in this area is considered moderate with the exception of disclosures relating to [redacted] and Security Index. Publicity regarding these three items would not only materially affect our operations ~~SECRET~~

Our interest in JDL could be twisted into alleged anti-Semitic one although organization is well documented as militant group (M) M

In addition to above specific areas, frequent reference in compromised documents to our checking various local, state and Federal records could be misconstrued and form basis for an unfounded allegation that Bureau engages in gestapo-type investigations. We also face potential intangible repercussions because of this incident as public could lose confidence in our ability to maintain confidential relationships. This, of course, would depend on extent of publicity given to stolen documents. At this point, there has been comparatively little publicity regarding the incident itself and no publicity as to any of the specific documents involved. U

The Attorney General

NOTE:

The 3/26/71 edition of "The New York Times," in disclosing the contents of several stolen documents, stated that one of the items was a paper noting an Idaho Boy Scout leader's plans to take his troop to the Soviet Union. Consistent with the Attorney General's wishes to be kept fully informed in this matter, we are furnishing him a résumé of this particular item. The item in question came to us on a confidential basis from [REDACTED]

[REDACTED]. Document is completely innocuous in content and no investigative action was taken nor intended in this matter. We are so advising the Attorney General. u

Among the documents stolen during the burglary of the Media, Pennsylvania, Resident Agency, Office of the FBI, March 8-9, 1971, was a copy of a typewritten letter on the letterhead of the University of Idaho, Moscow, Idaho, College of Letters and Science, Department of Physics, dated November 4, 1970, addressed to the Embassy of the USSR, Washington, D. C., and signed by Thomas Ingerson. The letter indicates that Ingerson is the advisor of a group of Explorer Scouts in Moscow, Idaho. He indicated that the group was interested in touring the Soviet Union during the Summer of 1971, and requested information concerning the necessary steps to arrange such a tour. ~~(S)~~ U

Numerous instances coming to our attention over the years have documented the proclivity of communist intelligence services for attempting intelligence recruitment among United States residents visiting communist-bloc countries. As a counterintelligence measure, this Bureau has an interest in identifying United States residents engaging in such travel and, under highly selective circumstances, we conduct interviews in these cases. Among regular sources identifying such visitors are cooperative representatives of travel agencies. In this instance, a travel agent in Philadelphia made available a copy of this document, which had been routinely referred to him by the Soviet Embassy. Under the highly selective criteria of this program, no investigative action was taken nor intended in this matter. ~~(S)~~ (U)

In partial substantiation of the theory those involved in the East Coast Conspiracy to Save Lives (ECCSL) may be directly involved, or at least have knowledge of those responsible for the March 8, 1971, break-in of the Media Resident Agency (RA), the following is set forth: u

[redacted] was quoted in a Chester, Pennsylvania, newspaper, March 12, 1971, as having been provided a press release from the Citizens Commission to Investigate the FBI. [redacted] is quoted as never having heard of the group before but criticized the news media for not giving it sufficient publicity. He denied being a conspirator, bomber, or kidnaper, but the release had been sent to him since he is an advocate of nonviolence and could give the release extensive publicity. Although he indicated the communication was postmarked Philadelphia, Pennsylvania, March 1971, he had not reported same to the FBI and was quoted as saying he felt no legal or moral responsibility to do so. u

[redacted] known activist and Berrigan supporter, while acting as master of ceremonies at Catholic University on March 15, 1971, during a discussion concerning the ECCSL case made reference to the Media RA burglary. A Washington Field Office Agent and an informant in attendance heard him make the remark, "We had been interested for some time as to what they had in their files there." Baltimore Agents located [redacted] on March 18, 1971, and attempted to pin him down as to the meaning of his statements. He denied complicity in the burglary or knowledge of those involved, claiming the remarks attributed to him were a play on words. u

As our Agents initiated the interview with [redacted] they observed [redacted] on the premises. He left upon the Agents identifying themselves and later, on March 18, 1971, at a public appearance at Bloomsburg State College, Pennsylvania, when

openly admitting his past involvement in destruction of draft board records, commented upon the fact he and another person (not named) were approached by the FBI and questioned concerning the Media RA burglary. This is not true since our Baltimore Agents did not question [redacted]. He departed as they initiated the interview with [redacted]. Continuing, [redacted] made the statement, "Maybe these documents will tell us about the list of informers in the Philadelphia, Pennsylvania, area, especially in the black community." u

In line with previous requests from [redacted] Departmental Attorney and Chief Prosecutor in the ECCSL case, we have not interviewed [redacted]. Since [redacted] is under indictment in the ECCSL matter, as indicated in our letter to the Department March 18, 1971, he will not be interviewed without the Department's clearance. u

ACTION: Attached for approval is a letter to the Criminal and Internal Security Divisions of the Department briefly summarizing the above facts and indicating neither [redacted] nor [redacted] will be interviewed without clearance by the Department. u

This is in response to memorandum J. J. Casper to Mr. Mohr dated March 17, 1971, which listed items in SAC letters taken during the burglary of the Media, Pennsylvania, Resident Agency. This memorandum requested the Division responsible for items in the SAC letters to comment concerning the sensitivity of the information and report instances wherein this material is used by the criminal element. U

The items pertaining to the General Investigative Division have been reviewed and it was noted that one item could possibly be used by extremist or new left individuals to publicly claim the U. S. Government is suppressing the political opinions and freedom of speech of its citizens. U

This is Item C in SAC Letter 71-9 dated March 2, 1971, captioned "Dissemination of Information to United States Secret Service - Assaulting Federal Officer, Extortion, and Threats." This item relates in part to agreement made by the United States Secret Service and the FBI on July 27, 1966, concerning Presidential protection. It indicates that United States Secret Service is maintaining a list of individuals who have made threats of bodily harm or attempted to cause bodily harm to officials or employees of Federal, state, or local Governments, provided such threats or acts are made against these persons because of their official status; individuals who threaten or attempt to redress a real or imaginary grievance against employees or

By memorandum dated March 15, 1971, it was recommended and approved that representatives of the Bureau's Office of the Legal Counsel and General Investigative Division contact appropriate Department of Justice officials in order to explore the possibility of obtaining a court order to forestall public disclosure of FBI documents stolen during the March 8, 1971, burglary of the Media, Pennsylvania, Resident Agency by a group alleging to be the Citizens Committee to Investigate the FBI. u

Deputy Assistant Attorney General Leon Uulman was contacted on March 18, 1971, at which time he advised it would not be possible to obtain a court order protecting stolen FBI documents unless an adversary party could be named in the civil action. It was suggested and agreed to by Mr. Uulman that we could identify as a nominal party to a law suit the Citizens Committee to Investigate the FBI who have claimed credit for the burglary of the Media, Pennsylvania, Resident Agency. It was further suggested and agreed to by Mr. Uulman that having established a cause of action against this nominal party, all other persons who are acting in concert with that party could be enjoined from disclosure of stolen FBI material. u

Mr. Uulman suggested that there was little precedent for this kind of action, but that it might be possible for an appropriate order to be obtained. He suggested that specific advice concerning the possibility of such an order being obtained should be solicited from the Civil Division or the Division having jurisdiction over this case. u

On 3-22-71, [redacted] of the Department called and said that he had been contacted by Congressman Parren J. Mitchell (D-Md.) who thought that he had some documents which had been stolen from the FBI.

Inspector [redacted] contacted Congressman Mitchell immediately at his office. Mitchell said that Friday afternoon he found two documents outside the door of his Baltimore office located in Room 1018, Federal Office Building. These documents consisted of a newspaper clipping regarding captioned case and the news release put out by the Citizen's Commission to Investigate the FBI.

At approximately 1 p.m. on Sunday 3-21-71, he received a phone call at his home. He could not remember the exact conversation but thought he was asked if he would be at home and upon replying that he would be for the entire afternoon he was told that a package would be delivered to him involving the material he had received at his office Friday. Approximately one and one-half hours later his doorbell rang. Upon answering, no one was at his door but he found a brown envelope containing what appeared to be Xerox copies of several of the documents stolen on captioned case. The Congressman said he resides in a ghetto apartment, number 6, on the second floor and that there is no superintendent or other person who would have seen anyone coming to his apartment door. He recalled the voice on the telephone was female and that she had "good diction" but he could recall nothing distinctive and had no idea who the caller might have been.

Congressman Mitchell said that he was an avowed supporter of Peace in Vietnam and had long supported actively Black civil rights programs and organizations. He assumed that this was the reason he was selected but felt that since these were copies, similar documents might be distributed to many other persons.

M. A. Jones to Bishop Memo
RE: MEDBURG

b6
b7c

The Congressman did not have the brown envelope with him at his office but said it was still at his apartment in Baltimore; however, he was leaving for Pittsburgh today but would have the envelope at his office on Wednesday at which time it could be picked up. The Congressman said there would be no difficulty for these people to contact him since his telephone number is listed in the Baltimore directory. The Congressman stated that he had handled all the documents as had all the members of his staff. He stated further that he had retained copies of the documents. (Staples in documents apparently are not original staples he received.) To avoid any further contamination the documents were not examined by [redacted] in the Congressman's presence. The Congressman was asked if he would object to having his staff fingerprinted should it be necessary for elimination purposes. He said he assumed most of them or all of them had been fingerprinted because of their employment; however, he would have to consider further whether he would agree to having them fingerprinted again since he was not enthusiastic about such procedures. u

RECOMMENDATION:

That FBI Laboratory examine these documents for any information which might be of assistance and also process for latent fingerprints. Results should be furnished to General Investigative Division. (Original specimens hand delivered to the Laboratory.) u

Examination requested:

Document - Fingerprint

Remarks:

Efforts should be made to obtain known hand printing of logical suspects for comparison with the hand printing on the envelopes, Q43 and Q49.

The copy, Q84, contains limited indented writing. However, it was not possible to determine the text of this writing.

The requested Xerox examination and the latent fingerprint examination will be handled separately.

Buffalo at Rochester should furnish the enclosed evidence to the Xerox corporation for appropriate examination. On completion of this examination, the submitted evidence should then be forwarded to the Identification Division for appropriate latent fingerprint examination.

Q84 One copy, the contents of which are the same as Q15, Q33 and Q31. This copy was prepared on a typewriter other than the typewriter used in the preparation of Q15, Q33, and Q31.

Result of examination:

With the exception of Q34, the submitted copies are the same as copies previously received as noted above. ✓

The copy, Q34, is the same wording as the copies, Q15, Q33 and Q51. The typewriter impressions on Q34 are the same style as the typewriter impressions on the news release specimens captioned "Citizens Commission to Investigate the FBI." However, the typewriter impressions on the copy of Q34 lack sufficient detail to determine if Q34 was or was not prepared on the same typewriter used to prepare Q14, Q34 and Q50. ✓

It was determined that the hand printing on the envelope, Q40, was prepared by the writer of the hand printing on the envelope, Q48, addressed to Senator George McGovern. ✓

No watermarks, indented writing of value or other marks which would indicate the immediate source of this material were noted on Q40 through Q33. The stamps on Q40 are from a sheet of stamps. ✓

The submitted evidence is being forwarded to the Rochester, New York Resident Agency with a copy of the Buffalo report. ✓

[redacted] called to advise me that an envelope bearing the return address of the New York Times, 1920 L Street, N. W., Washington, D. C., was delivered to his office by courier. He advised me he did not know the identity of the courier; however, the courier was given this envelope by a guard at the entrance of the building. These are the only facts known with reference to this matter. u

A quick examination of the material indicates that it is additional material apparently delivered to the New York Times which appears to be identical to that heretofore furnished to Congressman Mitchell of Maryland and Senator McGovern of South Dakota. u

ACTION RECOMMENDED:

PAGE 2 Under the circumstances it would be helpful if a contact could be made with the New York Times to determine the manner in which this information was delivered to the New York Times office here in Washington. It will also be desirable to attempt to trace back its delivery to [redacted] office. If approved, a contact will be made with the New York Times and in the meantime we will attempt to interview the guard at the entrance of the Justice Building who allegedly had this package handed to him. The attachments are being forwarded to the Laboratory for appropriate examination. u

Pursuant to the Director's approval, I called Assistant Attorney General Mardian, Internal Security Division, and advised him that with reference to Muhammad Kenyatta, a national vice president of the Black Economic Development Conference (BEDC), he appeared in Philadelphia at which time he held a press conference and issued a three-page statement which primarily was concerned with his interest in poor people. Attached to the three-page statement which he had prepared were two documents, one relating to a resume of some telephone bills and the other information relating to an interview with an officer of a bank in which the officer of the bank indicated that he would produce documents pursuant to a subpoena. These two documents appear to be similar to two items which were given to Congressman Mitchell and Senator McGovern.

In addition to the above, the entire presentation was taped by a source of the Philadelphia Office. This information is being furnished to the Bureau and will be transmitted to Mardian for his consideration. He indicated he would review the material, particularly the statement which was prepared, to determine whether any action was justified expressing an interest in such matters. He also stated that concerning the material that had already been delivered various individuals, including Congressman Mitchell and Senator McGovern, he anticipated that there would be additional submissions brought to our attention.

With respect to all of these he felt that some action was desired and he contemplated that an additional proposed statement for the Attorney General which would appeal in more specific terms to the news media to exercise discretion and seeking their cooperation in not disclosing information. He was going to key this primarily to the fact that unwarranted disclosure of the names of individuals, techniques, sources of a confidential nature, and others might result in undue harm and may have a bearing upon the national security.

SAC Jamieson, Philadelphia Office, advised that the Philadelphia Press this morning contained an article concerning the theft of FBI documents from the Media Resident Agency on 3/8/71.

The article stated that Muhammad Kenyatta, a national vice president of the Black Economic Development Conference (BEDC), is quoted as saying he had seen documents taken in the theft and when asked how he had acquired the documents he stated, "The FBI has its system and we have our system." A similar story appeared in this morning's Washington Post.

The Philadelphia papers stated that Kenyatta has scheduled a press conference at 1:00 p.m. today in Philadelphia concerning this matter. The Philadelphia Office has made arrangements to cover this press conference through an informant.

It is recommended that the press conference scheduled by Kenyatta be taken up with Mr. Mardian, Assistant Attorney General, Internal Security Division of the Department, to determine whether any type of process, including a grand jury subpoena, could be obtained for Kenyatta in the event he displays the original or copies of stolen FBI documents.

This is in reference to my telephone call to the Director concerning the fact Congressman Parren J. Mitchell (Democrat - Maryland) has received copies of 16 documents which were stolen from the Media, Pennsylvania, Resident Agency on the night of March 8, 1971. Mitchell contacted the Department earlier today, indicating he had such documents and requested someone pick them up. These documents were picked up by a representative of the Crime Records Division, and this is the subject of a separate memorandum prepared by Mr. Bishop's office.

Mitchell advised that two items--a press release issued by the so-called "Citizens Commission to Investigate the FBI" and the news item--were left at the door of his office Friday, March 19, 1971. On Sunday afternoon, he received a telephone call at his Baltimore residence from an unknown female inquiring if he would be home the rest of the afternoon. Approximately two hours later, he heard a knock at the door, responded, and found a package which contained the serials. No one was at the door.

Anticipating that similar contacts may be made with other members of the Congress and considering that if we received ample prior notice of any personal visits to these Congressmen's homes or offices, we could possibly identify individuals who may be responsible for the Media Resident Agency burglary. It is recognized that any contact with members of the Congress who would likely receive such information could result in adverse comment. Nevertheless, we have an obligation to seek their assistance as a criminal violation has occurred. If any members of the Congress should cooperate, it would afford us an opportunity to obtain information which might lead to the solution of the case.

REC 107

52-94527-266

It is recommended we contact a representative number of members of Congress, regardless of race, color, or creed. Of the colored members of Congress, it is recommended we contact Senator Edward W. Brooke

Stolen FBI files mention

Schroeder murder

A packet of reports on the slaying of Boston policeman Walter Schroeder was among the documents stolen during a raid on a suburban Philadelphia FBI office.

One of the reports — dealing with the surveillance of a Philadelphia area professor — was included in the selection of reports made available to the press this week by the Citizen's Committee to Investigate the FBI which has claimed responsibility for the raid on the Media, Pa., FBI office on March 8.

This reporter received a selection of 16 reports by mail yesterday. They had been mailed March 22 from Philadelphia, addressed to Michael Kinney (a misspelling). Boston Globe, Boston, Mass.

The Washington Post and the New York Times have already published news stories on these FBI documents on the basis of selections received by editors and reporters on those papers.

In general, the selection

of documents indicates that the FBI is actively engaged in surveillance of the New Left, including blacks, students and peace groups. They indicate an extensive use of paid informants and of telephone monitoring to gather information on these groups and their activities.

The report which relates

to the slaying of Patrolman Schroeder during a bank robbery in Brighton on Sept. 23, 1970 is a memorandum to the special agent in charge of the Philadelphia FBI office from one of his agents.

It says that a Boston informant had furnished information that a Philadelphia area philosophy professor might have had some contact with Susan Saxe and Katherine Power who are on the FBI's "Most Wanted" list and are being sought in connection with the robbery-slaying.

ENCLOSURE

The agent's memorandum cites information received from a security officer and a switchboard operator at the professor's college as well as the local police chief and postmaster.

They describe the professor's house and car, state that the professor is regarded as a radical, has had contact with Black Panthers and once staged a small-scale rock festival in his back yard. In addition, the switchboard operator indicated she would give information on long-dis-

tance calls made and received by the professor.

On Wednesday, a Justice Department spokesman told the Washington Post this report was part of a packet of documents relating to the Schroeder murder and that the entire packet had been stolen during the raid. The spokesman said more than 1000 documents had been stolen in the raid.

Other documents in the packet, the spokesman said, indicated the FBI was conducting "a straight criminal investigation" and was only doing what any policemen would do having received information that fugitives like Miss Saxe and Miss Power might be in their city.

Other documents, however, seemed to indicate that the FBI had many black student and peace groups under continual surveillance.

One such document, another Philadelphia office memorandum, said informants and sources should be urged to attend a conference of War Resisters International at Haverford College.

Still another document

was a news letter for FBI agents dealing with the New Left. It said that agents should interview activists to heighten the paranoia felt in those circles and help indicate that the FBI is aware of their activities.

This newsletter also dis-

cussed methods of making payments to informants and indicated that some received more than \$300 a month.

In a covering letter, the Citizen's Commission indicated that it will have a further public announcement some time next week.

Our relations with [redacted] have been limited but cordial. He was friendly and helpful when first contacted in this matter. In connection with our investigation into the burglary of the Resident Agency at Media, Pennsylvania, Assistant Attorney General Mardian of the Internal Security Division called W. C. Sullivan during the evening of 3/23/71, advising that he was speaking for the Attorney General who wanted, in addition to the stolen documents, a justification for information and activities of the FBI in so far as selected stolen documents were concerned, which if published could be damaging. It was the Attorney General's desire, according to Mardian, to have this justification for FBI actions as a means to protest vigorously and quickly any possible adverse publicity which may evolve.

In this regard, each FBI Division involved reviewed copies of material identified as having been stolen from the Media Resident Agency with a view toward selecting those documents which could possibly trigger undue criticism. Summaries of each item were prepared for transmittal to the Attorney General.

Several documents pertaining to our investigative efforts were in racial extremist matters. Of prominent investigative interest in this field was the violence-prone revolutionary Black Panther Party with its avowed goal of violent overthrow of the U. S. Government. We point out our investigations in this area are directed toward identifying those individuals and groups which pose a definite threat to the internal security of this country.

REC 107 52-94527-274

It is noted that some of the documents deal with Communists and new-left extremists matters. We show such FBI investigations are governed by strict guidelines concerned only with individuals and groups alleged to be subversive and violence-prone, among which are the Students for a Democratic Society and other campus-based extremist groups.

Mr. Sullivan from A. Rosen
Re: MEDBURG

In so far as espionage and foreign intelligence matters are concerned, the stolen documents pertaining to these categories relate to specific counterintelligence programs which are extremely sensitive and directed toward identifying, penetrating and neutralizing hostile intelligence forces operating in this country. u

The General Investigative Division

Our investigations in the Criminal field are all based on Statute. During the course of our criminal investigations, it is a standard investigative procedure necessary to the solution of investigations and the development of evidence which will sustain prosecutions in court to obtain information from confidential sources or informants who do not want their identity divulged. u

Several documents expose the identity of these sources and informants. In one instance the identity of a convicted felon, who has indicated a propensity toward cooperation with the FBI, is revealed. u

Another document indicates the Secret Service is maintaining a list of individuals who have made threats of bodily harm to officials or employees of local Federal and state governments. Certain criteria for advising Secret Service of the existence of these individuals is set forth. Our responsibility by agreement with Secret Service to promptly forward information which might have a potential bearing on the security of the President of the United States is clearly indicated. u

Special Investigative Division

Documents taken in the theft relating to the work of the Special Investigative Division relate to criminal informant matters, Selective Service investigations, organized crime matters, applicant inquiries and fugitive investigations, including deserters. In some instances these documents reveal the identity of potential criminal informants, investigative techniques, such as checks of telephone toll call records, information from sources such as postmasters and employees or officials at educational institutions, etc. The use of informants, investigative techniques and sources in connection with fugitive investigations is vital in connection with our efforts to apprehend wanted persons, many of whom are charged with extremely vicious crimes. u

Mr. Sullivan from A. Rosen
Re: MEDBURG

In the organized crime field, certain documents identified individuals connected with gambling activities. Under the law we have a responsibility to conduct gambling investigations in an effort to curb organized crime. u

With regard to certain documents pertaining to Selective Service investigations, the FBI has primary responsibility for conducting such investigations under the Selective Service Act and upon conclusion of same the U. S. Attorney is contacted with respect to his prosecutive desires. u

Stolen FBI files mention Schroeder murder

A packet of reports on the slaying of Boston policeman Walter Schroeder was among the documents stolen during a raid on a suburban Philadelphia FBI office.

One of the reports — dealing with the surveillance of a Philadelphia area professor — was included in the selection of reports made available to the press this week by the Citizen's Committee to Investigate the FBI which has claimed responsibility for the raid on the Media, Pa., FBI office on March 8.

This reporter received a selection of 16 reports by mail yesterday. They had been mailed March 22 from Philadelphia, addressed to Michael Kinney (a misspelling), Boston Globe, Boston, Mass.

The Washington Post and the New York Times have already published news stories on these FBI documents on the basis of selections received by editors and reporters on those papers.

In general, the selection

of documents indicates that the FBI is actively engaged in surveillance of the New Left, including blacks, students and peace groups. They indicate an extensive use of paid informants and of telephone monitoring to gather information on these groups and their activities.

The report which relates

to the slaying of Patrolman Schroeder during a bank robbery in Brighton on Sept. 23, 1970 is a memorandum to the special agent in charge of the Philadelphia FBI office from one of his agents.

It says that a Boston informant had furnished information that a Philadelphia area philosophy professor might have had some contact with Susan Saxe and Katherine Power who are on the FBI's "Most Wanted" list and are being sought in connection with the robbery-slaying.

ENCLOSURE

The agent's memorandum cites information received from a security officer and a switchboard operator at the professor's college as well as the local police chief and postmaster.

They describe the professor's house and car, state that the professor is regarded as a radical, has had contact with Black Panthers and once staged a small-scale rock festival in his back yard. In addition, the switchboard operator indicated she would give information on long-dis-

tance calls made and received by the professor.

On Wednesday, a Justice Department spokesman told the Washington Post this report was part of a packet of documents relating to the Schroeder murder and that the entire packet had been stolen during the raid. The spokesman said more than 1000 documents had been stolen in the raid.

Other documents in the packet, the spokesman said, indicated the FBI was conducting "a straight criminal investigation" and was only doing what any policemen would do having received information that fugitives like Miss Saxe and Miss Power might be in their city.

Other documents, however, seemed to indicate that the FBI had many black student and peace groups under continual surveillance.

One such document, another Philadelphia office memorandum, said informants and sources should be urged to attend a conference of War Resisters International at Haverford College.

Still another document

was a news letter for FBI agents dealing with the New Left. It said that agents should interview activists to heighten the paranoia felt in those circles and help indicate that the FBI is aware of their activities.

This newsletter also dis-

cussed methods of making payments to informants and indicated that some received more than \$300 a month.

In a covering letter, the Citizen's Commission indicated that it will have a further public announcement some time next week.

Reference my memorandum of 3-22-71 regarding the obtaining of documents in captioned case from Congressman Parren-J. Mitchell (D - Maryland). U

The Congressman had indicated in his conversation on 3-22-71 to Inspector [] that he would have the envelope in which the documents were delivered to him available at his office on Wednesday, 3-24-71. U

Congressman Mitchell was contacted on 3-24-71 by Inspector [] concerning this matter. The Congressman stated he had gone through his papers at the house thinking he could "lay my hands" right on the pertinent envelope; however, he found that when he returned to his residence the envelope had either been destroyed, thrown away, or mixed in with other envelopes of a similar type; hence, he is unable to identify or to make it available. He stated he is very sorry concerning this matter, adding that he will be more careful should he receive any future material of this type to preserve the evidence. U

The Congressman stated he is maintaining his pledge not to make any further dissemination of these documents in spite of the fact that the information contained therein has received extensive publicity in "The Washington Post" this morning (3-24-71). U

Attached is a copy of a memorandum to this Office from the Director of the Federal Bureau of Investigation dated March 19, concerning the above. You will note that the Bureau requests that the Department give "serious consideration" to the institution of a civil action for injunctive relief to prevent dissemination, disclosure, or other publication of the purloined documents. There is an article on the matter in today's Washington Post, p. A3, which includes the statement that the Attorney General is "very concerned" about the records theft and the "possible ramifications of the public disclosure of the information contained in the files."

Presumably this is a matter which under 28 CFR § 0.45(h) is within the jurisdiction of your division, although the Bureau refers in the last paragraph of the memorandum to the Criminal Division. Possibly the Internal Security Division may be interested. In this connection, I am sending a copy of this memorandum and the Bureau's memorandum to those divisions for their information and such assistance as may be appropriate. I understand that as far as criminal prosecution is involved the matter is presently in an investigative stage. Apparently the Bureau has some information as to the identity of the persons involved in the theft.

REC 107

52-94527-283

The Bureau tells me that dissemination, disclosure, or other publication of the documents could be harmful to certain of its informants, and also that some of the documents or copies thereof have already been turned over to members of Congress or members of their staff. See the Post article.

If we can be of assistance to your division in this matter please let me know.

Stolen FBI Reports Sent To McGovern, Rep. Mitchell

By Ken W. Clawson
Washington Post Staff Writer

Copies of stolen FBI intelligence files relating mostly to peace and black activist groups turned up yesterday in the hands of Sen. George McGovern (D-S.D.) and Rep. Parren J. Mitchell (D-Md.).

Both legislators immediately turned over the documents to the FBI, but Mitchell did so with the charge that some of the investigation and surveillance conducted by the FBI were "equally criminal. . ." as the March 8 burglary of the Bureau's Media, Pa., office.

A spokesman for Attorney General John N. Mitchell said last night that the attorney general was "very concerned" about the records theft and the "possible ramifications of the public disclosure of the information contained in the files."

He added that the attorney general neither confirms or

denys reports that the files show the FBI has disregarded civil liberties and invaded privacy in its investigations.

The documents were sent to McGovern and Mitchell by a group that called itself the Citizens Commission to Investigate the FBI.

Placed on Porch

An aide to Congressman Mitchell said the packet of documents, which was placed on the front porch of Mitchell's Baltimore residence, contained about 35 memos, reports and other internal papers.

"Anything not in keeping with the establishment was subject to investigation," the aide said. "One of the memos even makes reference to a black economic development project in the Philadelphia area."

Included were Black Panther documents and intelligence reports on peace and student groups opposing involvement in Southeast Asia, the aide said.

Rep. Mitchell would not detail individuals or groups mentioned in the reports, but he said that Maryland State College and the University of Maryland's Eastern Shore campuses were both named.

Rep. Mitchell and Sen. McGovern said they turned over the packet of documents, reproduced from the originals, to the FBI because they were obtained in a burglary. Rep. Mitchell added that he did so also because of the climate of wiretaps and the "military invasion of peoples' lives."

Arrives in Mail

McGovern said he refused to be associated with "this illegal action by a private group." He said he favors a full congressional investigation of the FBI administration but that the burglary undermines "reasonable and constructive efforts to secure appropriate public review" of the bureau.

McGovern received his documents in the afternoon mail at his Capitol Hill office. A McGovern aide said he be-

lieved the brown envelope contained a Princeton, N.J., postmark.

The aide said he was not familiar with the Citizens Commission to Investigate the FBI. But in a covering letter in which the group admitted the burglary, it also said it would make public in about a week a list of those to whom they sent the stolen files.

The letter said the documents were sent to McGovern because he had shown "concern and courage" in recent attacks on FBI Director J. Edgar Hoover.

The FBI refused all comment on the incidents.

FOR IMMEDIATE RELEASE
TUESDAY, MARCH 23, 1971

Attorney General John N. Mitchell today issued the following statement:

The Department of Justice is investigating the recent burglary of Federal Bureau of Investigation records at its office at Media, Pennsylvania. Copies of the stolen records have apparently been circulated to some members of Congress and of the press. It appears likely that these records include information which would disclose the identity of confidential investigative sources and information relating to the national defense. Disclosure of this information could endanger the lives or cause other serious harm to persons engaged in investigative activities on behalf of the United States. Disclosure of national defense information could injure the United States and give aid to foreign governments whose interests might be inimical to those of the United States. The Department is attempting to determine which of the documents stolen may contain such information. Pending the speedy completion of such an investigation, the Department urgently requests that those who have received copies of the material not to further circulate it or publish it.

In connection with our investigation into the Media, Pennsylvania, Resident Agency burglary 3/8/71, Philadelphia points out subjects may attempt to utilize services of dissident ex-Agents, namely [redacted]

[redacted] in order to interpret contents of stolen documents.

Philadelphia recommends discreet development of current location and associations of each. u

Investigative activity with respect to [redacted] could adversely affect our position in connection with pending litigation. Likewise, should FBI investigative activity become known with respect to [redacted] we would be subjected to severe criticism. Accordingly, if approved, no such action will be taken and Philadelphia will be advised. u

RE WASHINGTON FIELD TEL TO BUREAU MARCH SIXTEEN, LAST,
AND PHILADELPHIA TELS MARCH SEVENTEEN, INSTANT.

ON PRESUMPTION THE EASTCON GROUP IS BEHIND THIS
BURGLARY, FOLLOWING IS SUGGESTED:

POSSIBLE FIRST MOTIVE WAS TO SECURE DOCUMENTS SUPPORTING
THEIR CLAIM THAT FBI HAS USED PROVOCATEURS, SUCH AS
AND TO IDENTIFY INFORMANTS AND LOCATE

NO SERIAL CONCERNING THIS CASE WAS STOLEN. FROM THIS VIEW,
PURPOSE OF THE BURGLARY WAS FRUSTRATED.

TO FULLY CAPITALIZE ON STOLEN MATERIAL, THE THIEVES
WILL NEED SOMEONE FAMILIAR WITH MEANINGS REFLECTED IN THESE
DOCUMENTS, MUCH OF WHICH WILL BE UNCLEAR TO NON-FBI PERSONNEL.
